Graphenano Dental offers a wide chromatic catalogue, which guarantees comprehensive solutions. The **G-CAM** colorimetry, based on the VITA classic shade guide, is not only limited to intermediate colours, but also allows for more shades through the make-up of photopolymerisable surfaces in the laboratory.

**G-CAM** is available in the following dental colours: BL2, A1, A2, A3, A3'5, B2, C2 and transpa.

The **G-CAM** disc comes in two different formats:

- **G-CAM Monochroma**, single colour. Delivery time: 3-6 days.
- **G-CAM Multichroma**, a unique wide chromatic spectrum based on natural colours with high translucence. Delivery time: 30-45 days.
